EASY PACKAGING

Sal-Tech Easy Packaging

Weighing Form, Fill & Seal

Positioning bulk products into defined weight or count and then packaged in vertical formed bag or a horizontal flowpacked tray or the item directly.

MULTIHEAD WEIGHERS

STEP MHW-10-05

Specifications:	
Model	STEP MHW-10-05
Item no.	48291005
Max. Cap.(g)	1-100grams
Weighing Accuracy	±0.1-0.5g
Max Weighing speed	40-60WPM
Hopper Capacity	0,5L
Control system	MCU Control System Optional
Operation Panel	7 inch touch screen
Power Supply	AC220V ±10%, 50Hz/60Hz 1.5KW
Packing Dimension (mm)	1100L)×1100(W)×1780(H)
Net Weight/Packaging Weight	360kg

STEP DIMPLED PLATE OPTION ON MULTIHEAD WEIGHERS

Application:

It is especially suitable for weighing QQ candy, soft candy, jelly, frozen food, meat roll, vegetable, screw, etc. which are sticky, hard-flowing.

Extra Price typically 8-10.000 DKK, but request separeate quote per machine type on ordering.

MULTIHEAD WEIGHERS

STEP MHW-10-16 & STEP MHW-10-25

Specifications:		
Model	STEP MHW-10-16-MCU	STEP MHW-10-25-MCU
Item no.	48291016	48291025
Max. Cap.(g)	10-800g	10-1500g
Weighing Accuracy	±0.1-1.5g	±0.1-2g
Max Weighing speed	70WPM	70WPM
Hopper Capacity	1.6L	2.5L
Control system	MCU Control System Optional at extra cost PLC(Siemens or Rockwell AB)	
Operation Panel	7 inch touch screen	
Power Supply	AC220V ±10%, 50Hz/60Hz 1.5KW	
Packing Dimension (mm)	1100L)×1100(W)×1780(H)	1100L)×1100(W)×1780(H)
Net Weight/Packaging Weight	288KG/400KG	288KG/400KG

Application:

It is suitable for weighing of granule, slice shape such as cereal, pasta, candy, seed, chips, coffee bean, nut, puffy food, biscuit, chocolate, pet food, frozen foods, etc. It is also suitable for non-food industry such as screws, bolts and plastic components.

Main Features:

- Original program can be restored.
- Easy cleaning and maintenance with clean function, all hoppers can stay open
- Piece counting function 4, IP65 certificate 5, Unqualified weight reject 6, Step motor angle can be set according to different product 7, 99 program can be preset

Special Features:

- Modular electronic system makes function expanding and maintenance easier and at lowest cost
- Professional A/D card with high accuracy and stability. Interchange is available
- HMI program with different authority management more user-friendly
- HMI program can be upgraded by U-disk
- PLC control system applied in the weigher and it makes machine more stable and low fault rate. Makes expansion of auto weigh and Packaging System easy.
- Application software can be upgraded by memory card.
- Remote is available
- Application software can be upgraded by memory card.

STEP MHW-14-25 MULTIHEAD WEIGHER

Application:

It is suitable for high speed weighing of granule, slice, roll or irregular shape products such as candy, seed, jelly, fries, coffee bean, peanut, puffy food, biscuit, chocolate, nut, yogurt, pet food & frozen foods, etc. It is also suitable for weighing small metal and plastic parts.

STEP MHW 14-25 HEAD DIMPLED MULTIHEAD WEIGHER

Application:

It is especially suitable for weighing QQ candy, soft candy, jelly, frozen food, meat roll, vegetable, screw etc which are sticky, hard-flowing.

Features:

- Load cell level sensor control material feeding;
- No products Auto pause function can avoid material dropping out during Running;
- The single linear feeder amplitude can be auto/manual adjusted will ensure the products easy-flowing with high accuracy;
- Facility to maximize or minimize the operation angle to the size of the product.
- IP65 waterproof and dustproof design, which is easy to clean and maintain.
- Multilanguage control panel, Spanish, Korean, German, French and Arabic, etc.
- High accuracy and high speed modes can be select.

Specifications

Model	STEP MHW-14-25
Item no.	48291425
Max. Cap.(g)	10-3000g
Weighing Accuracy(g)	0.1-1.5g
Max. Weighing Speed	120WPM
Hopper Volume	2500ml
Control Panel	10.4"LCD Keypad Screen/Touch Screen
Options	Dimple Plate/Timing Hopper/Printer/Rotary Top Cone
Driving System	Step Motor
Power Requirements	220V / 1500W / 50/60HZ / 10A
Packing Dimension(mm)	1100(L)x1100(W)x1780(H)
Gross WGT	495KG

STEP MHW-14-50 SALAD MULTIHEAD WEIGHER

Application:

It is suitable for weighing big granule products, beans, nuts, fruits, vegetable and salad with large target weight or volume.

Features:

- High accuracy and high speed modes can be selected;
- Rotary and vibration Top Cone can be selected.
- The single linear feeder amplitude can be auto/manual adjusted will ensure the products easy-flowing with high accuracy;
- IP65 waterproof and dustproof design, which is easy to clean and maintain.
- Multilanguage control panel, Spanish, Korean, German, French and Arabic, etc.

Specifications	
Model	STEP MHW-14-55
Item no.	48291455
Max. Cap.(g)	100-3000g
Weighing Accuracy(g)	1-5g
Max. Weighing Speed	70WPM
Hopper Volume	5500ml
Control Panel	10.4"LCD Keypad Screen/Touch Screen
Options	Dimple Plate/Rotary Top Cone
Driving System	Step Motor
Power Requirements	220V / 2000W / 50/60HZ / 12A
Packing Dimension(mm)	1226(L)x880(W)x1270(H)
Gross WGT	650KG

STEP MHWL-10-50 Multihead Linear 5,0L - 10 Head Linear Potato Weigher

This 10 head weigher is a linear packing machine for potatoes and root crops with speed as quick as 50BPM per 1kg. With an added function of PC technology and connection for an easier control and maintenance.

A VFFS machine that is titled to go beyond linear weighing and packing, this 10 Head Weigher swiftly operate to pack potato crops at a reasonable speed with consistency and precision. Maintaining that produce are of high quality for satisfaction of customers, this also provides a healthier production plant in terms of aiding in efficiency, effectivity, and worker safety.

Features:

- Accuracy and Reliability
- Speed
- Control System
- PC Connection
- USB Function
- Camera
- 10 head as top hopper
- Linear and Multihead Weigher
- Stronger Feeder

Applications:

Potato/orange/carrot/onion/complete farm products

Specifications:	
Model	STEP MHWL-10
Generation	4G
Weighing Range	100g – 5000g
Accuracy	±5g – 20g
Max. Speed	60WPM
Power Supply	380V, 50/60Hz, 2KW
Hopper Volume	5L
Monitor	10.4" in. Color Touch Screen
STEP Item no.	48291050

STEP LW-1-1000 Linear Scale 1 Channel Single-Head Linear Scale Machine

**For Rice, Flour, Tea, Nuts, Food, Almond Dragee
Count and weigh modes – Stainless Steel Construction**

The STEP LSC1-1000 Series Linear Scale Machines have been continuously developed over many years of production to be the most versatile and accurate range of linear weighing currently available. It designed for ease of operation and can be supplied in single units for semi automatic use (hand-presented bags or containers) or in a multiple format to link with automatic packaging machinery.

Simple to operate, the machine is set to a pre-determined pack (target) weight, then the bulk product is loaded into an in feed hopper. Using a vibration mechanism, the product enters the weigh pan, where the system monitors the weight. Once 80% of the target weight has been loaded, the system switches to a dribble feed for the final 20%, thus ensuring optimum accuracy. When the weigher has “made weight”, the product is discharged through specially made outlet chutes designed to suit your specific packaging arrangements. Various configurations are available, covering a weigh range from as little as 50g to as much as 5kg at speeds of up to 30 weighings per minute.(depending on density and flow characteristics) and for synchronization with packaging and existing indexing systems to provided a high speed, fully weight controlled system.

Options

- IP65 protected loadcells and controls
- Statistical information
- Multi discharge
- Count and weigh modes
- Compact design
- Stainless or mild steel construction

Application:

Ideally suited for granules, dry pieces products: Such as rice, Dried Foods, Tea & Coffee, Pet Foods, Nuts & Pulses, Seeds and some heavy density powder like Detergent etc.

Specifications	
Capacity	50-1000g (Classify depending on weigh pan sizes)
Speed	6-8(times/min)
Weighing accuracy	±0.2%
Voltage	220V/50Hz, 1ph or Per customer specification
Power	0.3KW
Machine size	L510×W800×H1100mm
Weight	160kg
Item no.:	48290110

STEP LW-4-3000 LINEAR WEIGHER

Application:

It's suitable for weighing slice, roll or regular shape products such as sugar, salt, seed, rice, sesame, glutamate, milk powder, coffee and seasoning powder, etc.

Special Features:

- Make mix different products weighing at one discharge;
- Adopt no-grade vibrating feeding system to make products flowing more fluently;
- Program can be freely adjusted according to production condition;
- Can be remote-controlled and maintained through internet

General Features:

- Adopt high precision digital load cell;
- Stable PLC system control;
- Color touch screen with Multilanguage control panel;
- Sanitation with 304# S/S construction;
- The parts contacted products can be easily mounted without tools;
- IP65 grade construction.

Specifications:	Models		
	STEP LW-4-3000	STEP LW-4-500	STEP LW-4-5000
Weighing Range	20~2000g	5~200g	100~3000g
Accuracy	0.2-2g	0.1-1g	0.5-3g
Weighing Speed	10~60wpm	30~70wpm	10~30wpm

Power Supply	220V/ 50/60HZ/8A	220V/50/60HZ/8A	220V/50/60HZ/10A
Item no.	48330430	48330430-500	48330430-5000

STEP CW-E2 CHECK WEIGHER

Application:

It is used to check whether the single bag weight is conformed to the preset weight or not, and auto remove off the unqualified products by the selecting device.

Features:

- Adopt advanced digital load cell to obtain high-speed and stable weighing;
- User-friendly touch screen with English languages;
- It can record each operation due to the strong data statistic function;
- It is convenient to maintain due to unloading belt;
- Frame with IP65 protection and 10 preset product data models.

Items/Specifications	Standard Weight Range

STEP JW-B1 VERTICAL WEIGHING PACKAGING SYSTEM

The Units:

- Large vertical automatic packaging machine.
- Multihead weigher
- Working platform
- Z type conveyer
- Vibrating feeder
- Finished products conveyer

Features

- Fully-automatically complete all the process from feeding, weighing, filling and bag-making, date-printing to finished products outputting.
- High weighing precision and efficiency.

Range of Application:

It is suitable for weighing of granule, slice, roll or irregular shape products such as candy, seed, jelly, fries, coffee, granule, peanut, puffyfood, biscuit, chocolate, nuts, pet food, frozen foods, etc. It is also suitable for weighing small hardware and plastic component.

Specifications

System Output	≥3500 tons per year.
Packaging Speed	30-70 ppm.
Packaging Accuracy	±0.2-1.5g (depends on the material)
Packaging Capacity	10~1500g
Operation Panel	English, Spanish and Korean etc.

STEP JW-B3 MANUAL PACKAGING SYSTEM

The Units:

- Diverter device
- Multihead weigher
- Z type conveyer
- Vibrating feeder
- Working platform
- Collection bucket

Features

- Automatically complete all the process from feeding, weighing, filling and bag making, date printing to finished products outputting.
- Discharge and seal by hand.
- High Weighing precision and efficiency without crashing and wasting material.

Range of Application:

It's suitable for packing kinds of products with good-made bags, such as: puffy food, potato chips, popcorn, jelly, candy, happy fruit, apple chip, boiled dumpling, rice dumpling and medicine, etc.

Specifications

System Output	≥3300 tons per year.
Packaging Speed	30-70 ppm.
Packaging Accuracy	±0.3 - 1.5g
Packaging Capacity	10~3000g
Operation Language	English

STEP JW-B4 ONE PLUS TWO SYSTEMS

The Units:

- Vibrating feeder
- Z type conveyor
- 14 head multihead weigher
- Working platform
- Diverter device
- Double-tuber packaging machine
- Finished products conveyor

Features

- It is suitable for weighing and packaging grain, slice, roll or irregular shape materials;
- It can fully automatically finish the whole procedure from material feeding, weighing, diverting, packaging to finished-products conveyor;
- This system is compact and rigid, which will save your labor cost and enhance your productivity.
- It will save your room and improve your production management.

Specifications:

System Output	6430 Ton/Year
Packaging Speed	30-70 Bags/Min
Packaging Accuracy	±0.3~1.5g

STEP JW-B5 4-HEAD LINEAR WEIGHER SYSTEM

The Units:

- Bucket Elevator
- 4 Head Linear Weigher
- Vertical Bagging Machine
- Finished products conveyor

Features

- It is suitable for weighing and packaging grain, slice, roll or irregular shape materials;
- It can fully automatically finish the whole procedure from material feeding, weighing, diverting, packaging to finished-products conveyor;
- This system is compact and economical, which will save your labor cost and enhance your productivity.

Specifications

System Output	3220 Ton/Year
Packaging Speed	30-50 Bags/Min
Packaging Accuracy	±0.3~2g

WEIGHERS ADD-ONS

STEP MG Series Mini Table Top Auto Feed Scale

This Mini Scale Table Top provides semi-automatic weighing with a simple configuration level. It is most suitable for light duty jobs like shops selling coffee powder, beans, tea nuts, powder, grains, seeds etc. Both versions are suited for packing granules, grains and other agricultural crops related products.

Vibration Channel for Feeding – Suitable for packaging powdered products such as Sugar, Powdered milk, refined salt and others.

Vibration Bowl for Feeding – Suitable for granules such as Coffee beans, beans, grains, seeds and others.

STEP Z-Shaped Conveyor

Z-shaped conveyor with vibration hopper

Stainless steel #304 Frame and Stainless steel Vibration Hopper and 1.8 L Food Grade PP bucket

Elevated height: **3.2**meter

Electrical connection: 380V 50Hz

Item no: 48618010-3218

Z-shaped conveyor with vibration hopper

Stainless steel #304 Frame and Stainless steel Vibration Hopper and 1.8 L Food Grade PP bucket

Elevated height: **3.8**meter

Electrical connection: 380V 50Hz

Item no: 48618010-3818

General item numbers:

- 48618010-HHLL with vibrator
- 48618020-HHLL without vibrator

And HHLL is height in 100mm and LL is liters per bucket

Main Features:

- The conveyer is applicable for vertical lifting of granule material such as corn, food plastic and chemical industry, etc.
- Convey speed: 5.5m³/h
- Convey height: 3.3~3.6m
- Be made of 304#stainless steel or painted steel
- Item no. 48618050-HHHH

STEP L-Shaped Conveyor

L-shaped conveyor

Stainless steel #304 Frame

Food gade belt 300mm wide

Elevated height: **3.2**meter

180-630mm Film Width Machines

STEP VFFS SGB630/S Automatic Vertical Packing Machine

Basic Machine Description

- STEP VFFS SGB630 Automatic Vertical Packing Machine Unit is specially designed for roll film fully automatic vertical bag forming.
- Now this machine has two models which we name SGB780 and SGB780S; the first machine model is for laminated film bag forming and the second one is for PE film bag forming
- The whole machine frame shall use SS304 Stainless Steel Structure to meet the food packing requirements.
- The machine unit shall adopt Siemens PLC controlling system with easy operating Touch Screen.

Basic Machine Unit Parameters

Machine Model:	STEP VFFS SGB630 / SGB630S
Packing Material:	Potatoes / Root Crops / Vegetables
Packing Weight:	1kg – 3kg (Depend on Material)
Bag Size Range:	W: 80-275mm L:50-460mm
Film Width:	180-630mm
Packing Speed:	About 10-45 BPM (Depend on Material)
Voltage Supply:	380v / 50HZ 3Phase Customized
Power Supply:	About 6kw
Machine Size	1825 X 1450 X 2100 mm
STEP Item no.:	48621040/48621050

Detailed Picture Showing

Main Electrical Parts Showing

STEP VFFS SGB630 Machine Model for Laminated Film

Touch Screen:	Germany Siemens
PLC:	Germany Siemens
Temperature Controller:	Xiamen Yu Dian
Servo Motor & Servo Drive:	France Schneider
Middle Relay:	Chint
Solid State Relay:	Chint
Phase Sequence Protector:	Chint
AC Contactor:	Chint
Motor Circuit Breaker:	Chint
Air Switch:	Chint

STEP VFFS SGB630S Machine Model for Single PE Film

Touch Screen:	Germany Siemens
PLC:	Germany Siemens
Temperature Controller:	Germany Ropex
Servo Motor & Servo Drive:	France Schneider
Middle Relay:	Chint
Solid State Relay:	Chint
Phase Sequence Protector:	Chint
AC Contactor:	Chint
Motor Circuit Breaker:	Chint
Air Switch:	Chint

STEP VFFS SGB780/S Automatic Vertical Packing Machine

260-780mm Film Width Machines

Basic Machine Description

- STEP VFFS SGB780 Automatic Vertical Packing Machine Unit is specially designed for roll film fully automatic vertical bag forming.
- Now this machine has two models which we name SGB780 and SGB780S; the first machine model is for laminated film bag forming and the second one is for PE film bag forming
- The whole machine frame shall use SS304 Stainless Steel Structure to meet the food packing requirements.
- The machine unit shall adopt Siemens PLC controlling system with easy operating Touch Screen.

Basic Machine Unit Parameters

Machine Model:	STEP VFFS SGB780 / SGB780S
Packing Material:	Potatoes / Root Crops / Vegetables
Packing Weight:	1kg – 5kg (Depend on Material)
Bag Size Range:	W: 120-380mm L:200-450mm
Film Width:	260-780mm
Packing Speed:	About 25 BPM (Depend on Material)
Voltage Supply:	380v / 50HZ 3Phase Customized
Power Supply:	About 6kw
Machine Size	1825 X 1450 X 2100 mm
STEP Item no.:	48621060/48621070

STEP VFFS SGB1080/S Automatic Vertical Packing Machine

620-1080mm Film Width Machines

Basic Machine Description

- STEP VFFS SGB1080 Automatic Vertical Packing Machine Unit is specially designed for roll film fully automatic vertical bag forming.
- Now this machine has two models which we name STEP VFFS SGB1080 and STEP VFFS SGB1080S; the first machine model is for laminated film bag forming and the second one is for PE film bag forming
- The whole machine frame shall use SS304 Stainless Steel Structure to meet the food packing requirements.
- The machine unit shall adopt Siemens PLC controlling system with easy operating Touch Screen.

Basic Machine Unit Parameters

Machine Model:	STEP VFFS SGB1080 / SGB1080S
Packing Material:	Potatoes / Root Crops / Vegetables
Packing Weight:	3kg – 10kg (Depend on Material)
Bag Size Range:	W: 300-520mm L:400-900mm
Film Width:	620-1080mm
Packing Speed:	About 15-20 BPM (Depend on Material)
Voltage Supply:	380v / 50HZ 3Phase Customized
Power Supply:	About 7kw
Machine Size	2200 X 1650 X 2580 mm
STEP Item no.:	48621080/48621090

STEP VFFS SGB 1080 Machine Model for Laminated Film

Touch Screen:	Germany Siemens
PLC:	Germany Siemens
Temperature Controller:	Xiamen Yu Dian
Servo Motor & Servo Drive:	France Schneider

Motor Circuit Breaker:	Chint
Air Switch:	Chint

STEP VFFS SGB1080S Machine Model for Single PE Film

Touch Screen:	Germany Siemens
PLC:	Germany Siemens
Temperature Controller:	Germany Ropex
Servo Motor & Servo Drive:	France Schneider
Middle Relay:	Chint
Solid State Relay:	Chint
Phase Sequence Protector:	Chint
AC Contactor:	Chint
Motor Circuit Breaker:	Chint

STEP VFFS

Vertical Form Fill & Seal machines

STEP VFFS PM Series

600mm Film Width Machines

1.1 STEP VFFS PM620 New generation vertical packaging machine for pillow bag style (Stainless steel frame)

Product:	Crops (like potatoes, root crops)
Filling range:	500-3000ml
Bag shape:	Pillow bag
Request bag size:	(W) X (L) mm (to be confirmed)
Packing speed:	15-45 bags/min (according to product)
Film Width:	600mm (one former included)

Bag size Range:	W ≤285mm x L ≤500mm
Back sealing width:	15mm
Horizontal sealing:	straight line, Space 3mm ,width: 15mm
Film pulling system:	By servo motor with double belts
Horizontal sealing way:	By pneumatic
Cutting way:	Serrate knife cutting(space 3mm)
Packaging Material:	laminated film, like: BOPP/PE
Power:	220V/50HZ Single phase,4KW
Air pressure:	6Kg Consumption:2m3/min

STEP Item no. : 48631040

800mm Film Width Machines

1.1 STEP VFFS PM800 New generation vertical packaging machine for pillow bag style (Stainless steel frame)

Same as STEP VFFS PM600 except:

Filling range:	1000-5000ml
Packing speed:	10-40 bags/min (according to product)
Max Film Width:	800mm (one former included)
Bag size Range:	150mm ≤ W ≤ 350mm x L ≤600mm

STEP Item no. : 48631060

Basic Feature:

- 7 inch Inovance color touch screen + Omron PLC, with error prompt and self-diagnose functions.
- Servo motor control on film pulling and sealing system, with double belts film pulling device.
- Schneider or Omron electronic elements.
- Material of contacting product surface is SUS 304
- "AIRTAC" Pneumatic component, Omron PID temperature control.

OPTIONS:

1.2 DH-7R Ribbon date coder (ribbon width: 25mm)

Ribbon width: 25mm Printer line:2 lines Each line max capacity is 10 characters character size: 3(H)*2(W) mm

1.3 Extra former

STEP VFFS

Vertical Form Fill & Seal machines

STEP VFFS ATV Series

160-620mm Film Width Machines

No.	Description
1	Form Fill Seal Machine STEP VFFS ATV300 *Stainless Steel structure; *Max. film width 620mm, bag width 70-300mm, bag length 100-300mm. *Eye market sensor & date printer included. *One set spare parts included *Servo-driven for film pulling ONLY; *Standard machine is only for laminated film and pillow bag. STEP item no.: 48641040
Optional items	
a.	Additional bag former
b.	Safety device
c.	Impulse PE sealing system (with water chiller)
d.	Material stopper(for pillow bag and laminated film only)
e.	Bag support (for packing more than 1kg)

320-800mm Film Width Machines

2	Form Fill Seal Machine STEP VFFS ATV800 *Stainless Steel structure *Max film width 800mm, bag width 150-385mm, bag length 100-400mm. *Eye market sensor & date printer included. *One set spare parts included *Servo-driven for film pulling ONLY; *Standard machine is only for laminated film and pillow bag. STEP Item no.: 48641060
Optional items	
a.	Additional bag former
b.	Safety device
c.	Impulse PE sealing system (with water chiller)
d.	Material stopper(for pillow bag and laminated film only)
e.	Bag support (for packing more than 1kg)

STEP DH3F Series Double Hoppers Weighing & Filling Machine Unit

is specially designed for packing granular materials like granular fertilizers, chemical industries, seeds, peanuts, nutlet, rock candy, pine nut, sunflower seeds.

Features:

- Adopting multistage trip and vibration feeding device to ensure better weighing range with good accuracy for max. and min. weight.
- Uses PLC control for the hanging weighing system and meet the requirements of IP54 dustproof and waterproof standard.
- Consists of semi-automatic weighing machine, conveyor and bag sewing machine or heat-sealing machine and other equipment can be equipped according to customer's actual needs.

Specifications

Model	STEP DH3F-2-060	STEP DH3F-2-460	STEP DH3F-2-920
Weighing Range / Hopper	50g – 5Kg	1-25 Kg	20-50 Kg
Drive Type	PMSM	Pneumatic & Electric	Pneumatic
Weighing Accuracy	$\leq \pm 0.2 \%$ (according to material characteristics)	$\leq \pm 0.2 \%$ (according to material characteristics)	$\leq \pm 0.2 \%$ (according to material characteristics)
Weighing Speed	12-20 bpm	10-20 bpm	10-15 bpm
Bucket Capacity	6L	46L	92L
Power / Current	1 KW / 6A	5 KW / 13A	6 KW / 16A
Voltage	AC 380V 50/60 Hz (Customized)	AC 380V 50/60 Hz (Customized)	AC 380V 50/60 Hz (Customized)
STEP Item No.	48261050	48262460	48262920

STEP JW-AX1 Single Hopper Bulk Weighing and filling unit

is specially designed for packing granular materials like granular fertilizers, chemical industries, seeds, peanuts, nutlet, rock candy, pine nut, sunflower seeds.

Shown with options:

- Conveyer belt
- Sewing machine for bag closing

Specifications	
Model	STEP JW-AX1
Weighing Range / Hopper	50g – 5Kg
Control Panel	7" Touch Screen
Weighing Accuracy	$\leq \pm 0.2 \%$ (according to material characteristics)
Weighing Speed	7-11 bpm
Bucket Capacity	6L
Power / Current	80W / 0,4A
Voltage	AC 230V 50Hz (Customized)
STEP Item No.	48300145
